Vantage Vue®

Ideal for:

- Weather enthusiasts
- Gardeners
- Data geeks
- Emergency professionals
- Educators
- Researchers
- Municipalities

The data you want with the accuracy, performance and reliability you expect

The fully-integrated, corrosion-proof sensor suite is built to take all the weather your location can give, whether it's freezing winters, springtime thunderstorms, blistering summer sun, or brisk autumn winds. The Vantage Vue is solar-powered, has a backup battery, and is very easy to install — you can have it up and running in 30 minutes. Its sleek design means you get all the hyperlocal weather data you want with minimal visual impact on your landscape, yard, or roof.

| Temperature | Wind Chill & Head Index | Humidity & Dew Point | Barometric Pressure | Rainfall & Rain Rate | Wind Speed & Direction |

AND MORE...

KEY FEATURES

See the weather as it happens with near real-time updates on quickly changing wind, temperature, and rain data.

Frequency-hopping, spread spectrum radio provides transmission distance up to 1,000ft/300m and superior reception.

Durable design passes a minimum of 10 tests before shipping, including rigorous calibrations and material endurance.

Solar-power energizes the station during the day. Onboard supercapacitor provides power at night. Lithium battery provides backup when needed.

Easily incorporate various Davis or third-party sensors to create a custom network of sensors tailored to your specific needs.

The smart way to view and stream live weather data

The WeatherLink Console revolutionizes the way you access, analyze, and understand your hyperlocal weather data reported by your Vantage Pro2™ or Vantage Vue sensor suite, or your custom network of multiple Davis sensors. One intuitive device lets you receive and display data from your local network and connect to Wi-Fi to push your data to the WeatherLink Cloud.

80+
Connected sensors to one WeatherLink Live

10+
Different sensor types

Touchscreen
Interactive HD display
1,000FT
Transmission distance

Live Data
Real-time data updates

Local Network or Wi-Fi
Leverage Wi-Fi to join the WeatherLink community

Monitor your environment

Configure a custom network of over 80 sensors on 8 transmitters so you can see data from sensors in the garden, by the pool, out in the garage, and down in the wine cellar – all with one WeatherLink Console.

Data viewing with WeatherLink® Cloud

Access your data on Weatherlink.com and App from any connected device via the WeatherLink Cloud. Leverage the WeatherLink API to easily integrate weather and sensor data into your own innovative applications.

TRY THE MOBILIZE APP

With the Davis Mobilize App you can quickly browse sensor data, create custom reports, set and receive alerts, and share information with others.
